ABOUT

Fourth-year Integrated M.Tech Computer Science student at VIT-AP University with experience in full-stack MERN development and AI-powered computer vision applications. Passionate about building scalable web applications, real-time systems, and machine learning solutions, with hands-on experience through internships, research, and technical leadership.

EDUCATION

VIT-AP University <i>Integrated M.Tech in Computer Science</i>	2023 – 2028 CGPA: 8.72
Harika Junior College <i>MPC</i>	2021 – 2023 986/1000

TECHNICAL SKILLS

Languages	Java, Python, JavaScript
Frontend	HTML, CSS, React.js, Tailwind CSS
Backend	Node.js, Express.js, Socket.IO, REST APIs
Databases	MongoDB, MySQL
AI / ML	OpenCV, YOLOv8, RT-DETR, Vision Transformers
Tools	Git, GitHub, VS Code, Postman, Render, Vercel, Google Colab
Core CS	Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

Connect VITians 2.0 <i>React.js, Node.js, Express.js, MongoDB, Socket.IO</i>	Live Demo
– Built a MERN platform connecting students and alumni with secure authentication, real-time messaging, profile management, and admin verification.	
Crowd Counting using RT-DETR <i>Python, OpenCV, RT-DETR, Vision Transformers</i>	Research Project
– Developed and evaluated deep learning models for crowd counting, object tracking, and density estimation using RT-DETR and computer vision techniques.	
Flight Data Recorder <i>React.js, Node.js, Arduino</i>	Live Demo
– Developed a cross-platform flight data recorder integrating hardware and software for reliable data logging and monitoring.	
QR Tracking System <i>React.js, Node.js, MongoDB</i>	
– Built a QR-based tracking system enabling administrators to generate QR codes and monitor user locations after scanning.	
<i>Additional full-stack applications, AI/ML projects, and Java projects are available on my GitHub profile.</i>	

EXPERIENCE

Research Intern <i>VIT-AP University</i>	Jun 2026 – Jul 2026 <i>Work</i>
Worked on Vision Transformers and RT-DETR based crowd-counting model training.	
MERN Stack Intern <i>Addwise Tech Innovations Pvt. Ltd.</i>	May 2025 – Jul 2025 <i>Work</i>
Developed MERN applications and implemented a QR-based location tracking system.	
Web Development Intern <i>Upfront</i>	Mar 2026 – Present <i>Offer Letter</i>
Developing scalable frontend and backend modules for production-ready web applications.	

LEADERSHIP & ACTIVITIES

Technical Team Lead <i>IEI Club, VIT-AP University</i>	Aug 2025 – Jul 2026
Led technical workshops, webinars, and student technical events.	
Web Tech Group Member <i>NextGen Cloud Club</i>	Feb 2025 – Feb 2026
Organized hackathons, web development sessions, and coordinated Smart India Hackathon activities for 425+ teams.	

CERTIFICATIONS

Addwise Internship — MERN Stack — ChatGPT	
Hack2Hack Hackathon — LinkedIn Webinar — NextGen Achievement	
GitHub: Additional projects including Portfolio Website, Expense Tracker, AI/ML experiments, Java applications, and full-stack web applications are available on my GitHub profile.
